1. POLICY STATEMENT

1.1 The Royal Marsden NHS Foundation Trust is committed to ensuring good performance management and continuous improvement through the ongoing appraisal and development of its staff. Appraisal is a key performance management tool and an important mechanism for building engagement and helping to improve individual and team performance to support organisational objectives.

1.2 This Policy sets out the principles for appraisal and the process for conducting Performance Appraisal and Development Reviews.

1.3 The framework for appraising performance will be based around agreed key result areas or work objectives and behaviours linked to the Trust values (these are described in the appraisal paperwork).

1.4 The annual Performance Appraisal and Development Review process is a fundamental part of good people management practice, in addition to regular informal discussions, providing constructive feedback on an individual’s work performance and related development throughout the year. It is important for managers to have direct communication with staff as frequently as possible; this will vary depending on the size and structure of the team.
1.5 The appraisal should be based on the principle of ‘no surprises’ and performance issues dealt with as and when they arise. The appraisal discussion will provide an opportunity to praise staff for their contribution during the year and provide constructive feedback to support ongoing development.

1.6 The Trust’s appraisal policy and procedures will be reviewed regularly to ensure that they continue to reflect emerging Trust, individual and NHS needs.

1.7 The Royal Marsden NHS Foundation Trust believes in providing equity in its services, in treating people fairly with respect and dignity and in valuing diversity both as a provider of cancer and community health services and as an employer. These principles will be followed when applying this policy and procedure.

2. **PRINCIPLES FOR THE PERFORMANCE APPRAISAL AND DEVELOPMENT REVIEW**

2.1 The Performance Appraisal and Development Review process is an integral part of the way the Trust manages employee performance and development.

2.2 All staff will have a formal annual Performance Appraisal and Development Review against agreed performance expectations (key result areas or work objectives).

2.3 Performance Appraisal and Development Review is a two-way process. It provides an opportunity for all staff to:

- Receive feedback on their performance against performance expectations
- Reflect on their work performance and give feedback on experiences working in the Trust and work area
- Confirm the requirements of their job and agree work objectives for the coming year
- Discuss and agree development needs and how these might be met
- Discuss career development aspirations

2.4 The Performance Appraisal and Development Review provides a context for the individual role by referring to the department and Trust objectives.

2.5 The Performance Appraisal and Development Review will be recorded on the appropriate Trust documentation and will include an agreed record of achievements, brief descriptions of how performance meets Trust values and behaviour requirements, future work objectives, ongoing work responsibilities (e.g. mandatory training) and agreed development.

2.6 The Performance Appraisal and Development Review will result in the production of a personal development plan (PDP) identifying any learning and development requirements and how they will be met.

2.7 The Performance Appraisal and Development Review will take place between staff and their manager or, where appropriate, another appropriately trained senior team member.
3. **OBJECTIVES**

3.1 It is important that employees understand how they contribute to the Trust objectives. Managers should ensure that staff are aware of the Trust objectives and align team and individual objectives accordingly.

3.2 An outcome of the appraisal should be agreed work objectives which relate to the Trust strategic objectives. The headings below set out the key areas to which objectives should be linked to:

- Quality services
- Efficient delivery
- Effective team working

3.3 Work based objectives may be a mix of project work (stretch/challenging objectives) and everyday work (maintenance objectives). Team objectives can be agreed for some staff groups.

4. **DEVELOPMENT PLANNING**

4.1 As part of the Performance Appraisal and Development Review, the appraiser and appraisee will discuss progress against the Personal Development Plan (PDP) agreed at the last appraisal, and discuss and agree development needs for the coming year, including mandatory training requirements to be documented in the PDP.

4.2 Managers will identify any development needs and plan to support staff to develop the appropriate knowledge and skills, this will be documented in the personal development plan. Appropriate development may include, shadowing colleagues, attending meetings, undertaking projects, attending face-to-face training, e-learning and academic qualifications.

4.3 Where agreed development is not supported as planned during the year, managers should provide a reason explaining the rationale for this.

4.4 In order to inform organisational learning and development plans, appraisers should share the outcomes of the development plans discussed in Performance Appraisal and Development Reviews with their manager (if they are not the appraisee’s manager), professional lead(s) and the Learning & Development department as appropriate.

4.5 Learning and Development will develop training plans based on NHS and Trust requirements and through discussions and feedback from managers. Specific training needs analysis will be undertaken as necessary.
5. **APPRAISAL OUTCOMES**

5.1 As an outcome of the appraisal for all staff, a performance rating should be awarded based on a review of all aspects of performance using the following scale:

<table>
<thead>
<tr>
<th>Rating</th>
<th>Definition</th>

<tbody>
<tr>
<td>Exceeding expectations</td>
<td>Not only meets all objectives and ongoing work responsibilities, but consistently goes the extra mile and is a role model.</td>
</tr>
<tr>
<td>Meeting expectations consistently</td>
<td>Performance is good or excellent; consistently meets expectations in relation to objectives and ongoing work responsibilities.</td>
</tr>
<tr>
<td>Development</td>
<td>Performance is below expected levels in one or more key areas / majority of areas. Development identified.</td>
</tr>
<tr>
<td>Unacceptable performance</td>

</tr>
