The Sixth Royal Marsden Lung Cancer Symposium

Wednesday 20 November 2019
The Royal College of Physicians, 11 St Andrews Place, Regents Park, London NW1 4LE
www.royalmarsden.nhs.uk/conferences
Dear Colleagues,

We would like to invite you to a state-of-the-art one-day symposium focusing on recent advances in the diagnosis and treatment of lung cancer.

This Sixth Royal Marsden lung cancer symposium will tackle burning issues and key challenges facing clinicians treating patients with lung cancer. We have assembled a combination of highly knowledgeable faculty members who will be talking on topics including, lung cancer screening, biomarker testing, systemic and local therapies in both NSCLC and SCLC. It will also involve discussions and debate on the pros and cons of treating oligometastatic NSCLC and put data in context with panel-based case-discussions.

This conference will be of interest to any medical, nursing or other healthcare professionals involved in the treatment and management of patients with lung cancer. This is a unique opportunity to listen to the experts with ample opportunity for interactive discussions.

We very much hope you will join us for this exciting and challenging event.
